# ALTEC AT37-GW Aerial Device

The ALTEC Model AT37GW is a self-propelled, 35 ft. articulating and telescoping aerial device

# ALTEC AT37-GW Aerial Device

## General Specifications

- Ground to bottom of platform: 35.3 ft.
- Working height: 40.3 ft.
- Maximum side-reach: 28.4 ft.
- Platform capacity: 400 lbs.
- Upper boom extension: 116 in.
- Equipment weight: 7,600 lbs.
- Travel height: 7.9 ft.
- Isolation gap:
  - Retracted: 8.0 in.
  - Extended: 35.0 in.
- Articulating arm isolation gap: 12 in.

# ALTEC AT37-GW Aerial Device

## Key Features

- 360 degree continuous rotation.
- 24 in. x 30 in. x 42 in platform.
- 180 degree platform rotator.

# ALTEC AT37-GW Aerial Device

## Key Features

- Cargo deck – 1000 lb. carrying capacity.

# ALTEC AT37-GW Aerial Device

## Key Features

- ALTEC ISO-Grip upper control system.

# ALTEC AT37-GW Aerial Device

## Key Features

- Lower controls including platform leveling.

# ALTEC AT37-GW Aerial Device

## Key Features

- Remote pendent controls for carrier.

# ALTEC AT37-GW Aerial Device

## Key Features

- Easy access to service points.
- 6 gallon fuel tank.

# ALTEC AT37-GW Aerial Device

## Key Features

- Radial type outriggers.
- Outrigger-down Interlocks.
- Outrigger motion alarms.
- Outrigger controls.

# ALTEC AT37-GW Aerial Device

## Additional Features

- Vinyl platform cover.
- Platform liner.
- Fall protection system (body harness and lanyard).
- Rubber wheel chocks.
- Outrigger pads.
- Turf pads.

# ALTEC AT37-GW Aerial Device

## General Specifications - Carrier

- Hinowa PT3000.
- Interchangeable rubber tracks.
- Hydraulic tensioners.
  
- Maximum speed in low: 1.6 mph
- Maximum speed in high: 3.2 mph
- Track length: 78.0 in.
- Track width – retracted: 34.0 in.
- Track width – extended: 46.8 in.
- Maximum drive slope – front to back: 15 degrees
- Maximum drive slope – side to side: 10 degrees
